

ACCOMMODATION

- » Ngapali beach offers many accommodation options ranging from backpacking guesthouses to luxury stays. The beach is divided into three main stretches that all face west, thus providing magnificent sunset views.
- » The southern beach is located close to the airport and has hotels with good reviews.
- » The north beach is about three miles from the airport, making it more convenient as the time for airport transfers can be greatly reduced. If you're travelling on a budget, there are affordable guesthouses available in the north beach area. However, it also offers one or two high-end hotels.
- » Between these two lies the golf course and Linthar village, which has accommodation options too. The central beach offers several luxury stay options.
